Mission statement:

Agasti enables businesses through technology transformations. The company was founded in 2011 to with the goal to partner with our clients and deliver quality technology consulting and resource capabilities.

Agasti Graduate Career Program

Agasti provides industry best technology training and corporate experience. Once you complete your training program, you will have an opportunity to work for one of our clients.

The program is a bridge to connect your academic experience and turning that into a successful career for you.
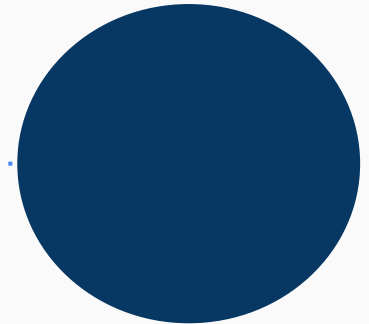

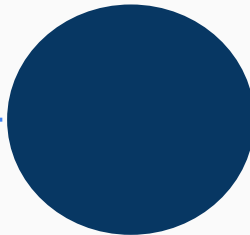

How it works

Step 1 - Training

Once you are assessed and selected for training, the technical training track can last 3-4 months. We will help you gain valuable technical foundational skills, such as SQL, Web, OS, Agile. We will also create specific track for more detailed technical training in products/solutions, such as Salesforce, SAP, Workday, BI Tools

Step 2 - Placement

You will have an opportunity to work with one of our clients as an Agasti consultant for 2 years and gain valuable industry experience.

Step 3 - Conversion

At the end of 2 years, you have the option to convert to an employee at the client, remain as Agasti consultant, or find another opportunity. In any of the above options, we hope we helped you launch your career.
